- 12V Halogen Capsule
- G4
- 20W

Lamp Safety Recommendations

Lamps for luminaires which could be exposed to human skin should NOT exceed 20W.
Lamps exceeding 35W will cause excessive heat and may result in unacceptably high surface temperatures.

cables

1mm
GC-1-2
3mm
GC-3-2
5mm
GC-5-2

specifications

- garden cabling
- UV stabilised
- extra low voltage
- 1mm / 3mm / 5mm

transformers

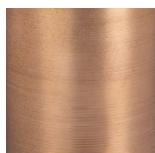

IP65
IP67

specifications

- weatherproof
- inground
